Welcome!

As believers, we are to be doing everything in our power to live at peace with all people. The temptation is to hunker down and take care of ourselves and to not worry about the relationships we have hurt in the past, while moving forward making sure things are good in my life. Realizing that I could be threatening the effectiveness of the gospel in our church and the community should sober us up. We ought to be reminded that even genuinely godly, concerned Christians can cause division within their community. When reminded of this by the Truth of God's Word, we ought to repent before our God and do everything in our power to reconcile the relationships we have inside the church and in our daily lives.
